

RSM Collective Consulting Services

GENAI GOVERNANCE & GUARDRAILS ASSESSMENT:

PRICE \$10,000.00

Generative AI adoption is accelerating & so are risks. Today, **75% of employees use GenAI tools** while 68% of enterprises fear data exposure from unmonitored usage.

RSM Collective and SurePath AI deliver a **30-day Proof of Concept (POC) to Production** assessment that transforms unmanaged GenAI usage into a secure, compliant, and governed platform. The result is the safe and effective adoption of GenAI tools and services across your workforce.

Request A Rapid Assessment Today

Rapid GenAI Discovery in 10 days	Governance Framework in 30 Days	Transition to Production
• Identify all GenAI tools and data flows in use (including Shadow AI). Quantify ROI and usage trends across departments. • Assess exposure risks and compliance gaps. Integrate with existing, • AWS, Palo Alto, Netskope, & Zscaler environments.	• Define policies and enforce guardrails for compliant GenAI use. • Implement role-based access controls, content, data redaction, and classification. • Establish secure connections to AWS IAM, Amazon Bedrock, Amazon S3, AWS IAM, CloudTrail & CloudWatch.	Deploy the SurePath AI Governance Platform for ongoing monitoring, automate compliance reporting, and enable safe access to public and private GenAI models. • Full visibility into all GenAI usage within 10 days. • Operationalized governance in 30 days.

Available now in the AWS Marketplace. The combined RSM Collective assessment and SurePath AI platform deliver an 80% cost advantage over traditional AI governance tools while ensuring continuous, centralized compliance across your organization.
